About me
Flutter Engineer with **6+ years** of commercial experience building and delivering complex cross-platform applications for mobile, desktop, and web.

Led frontend development across multiple products, taking full ownership of application architecture, technical decisions, and engineering delivery. Experienced in coordinating development tasks across small engineering teams and driving products from initial architecture to production release.

Strong expertise in **Flutter**, **Dart**, **Clean Architecture**, **BLoC**, dependency injection, **native platform** integrations, and **real-time communication**. Conducted **25+ technical interviews** and contributed to engineering practices and code quality.

Skills
Mobile Development: Flutter, Dart, iOS, Android, Swift, Platform Channels

Architecture & State Management: Clean Architecture, MVVM, BLoC, Cubit, Modular Architecture, Dependency Injection

Networking & Data: REST APIs, GraphQL, WebSockets, Long-polling, Dio, Retrofit, Drift, SQLite

Tools & Code Generation: Melos, GetIt, Injectable, JSON Serializable, Build Runner, GoRouter, Firebase

Testing: Unit Testing, Integration Testing, Golden Testing

Engineering: Technical Ownership, Architecture Design, Cross-platform Development, Technical Hiring, Task Coordination

Experience (6 years)
- **Mobile Tech Lead, Sporta** | 06/2026 - Present
  - **Led** the **end-to-end** development of a Flutter mobile application from initial architecture to production release on the **App Store** and **Google Play** in **under** six months.
  - Took **full ownership** of **mobile frontend architecture**, technical decisions, and engineering delivery.
  - **Coordinated** development tasks across a two-engineer **Flutter team.**
  - **Designed** and **implemented** a **scalable** feature architecture with clear separation between data, domain, and presentation layers.
  - Integrated **REST APIs**, real-time updates with **WebSocket**, **push notifications**, and complex content-driven user interfaces.
  - Collaborated with backend engineers and product stakeholders to translate requirements into technical solutions.

- **Senior Flutter Developer, NDA** | 06/2025 -06/2026
  - **Led** frontend development of a cross-platform corporate workspace application supporting **iOS**, **Android**, **macOS**, **Windows**, **Linux**, and **Web**.
  - Took f**ull ownership** of **frontend architecture**, **technical decisions**, and **engineering delivery**.
  - Coordinated task allocation and development priorities across a small Flutter engineering team.
  - **Designed** and **implemented real-time messaging** with long-polling, reconnection, event synchronization, and error recovery.
  - Implemented local persistence, **secure authentication**, **push notifications**, and **secure** file handling

- **Senior Flutter Developer, Corgi** | 09/2023 - 06/2025
  - Developed mobile applications from scratch, selecting the technology stack and defining the architecture **(Clean Architecture, MVVM).**
  - Developed a cross-platform **WireGuard** VPN application for **iOS**, **Android**, and **macOS** using Flutter, integrating backend-provided VPN configurations and connection lifecycle management across supported platforms.
  - Implemented **3D interaction features**, including fully interactive **game character editing** with **randomization, undo, and redo functionality**, using **SceneKit** with **Swift and SwiftUI**.
  - Integrated **Appodeal SDK** for showing ads in the application
  - Introduced additional automated testing with **Katalon Studio,** reducing escaped defects by **35%.**

- **Mobile Developer, ICT Group** | 04/2022 - 09/2023
  - Developed government applications using Dart, Flutter, React, React-Native, TypeScript.
  - Introduced the practice of using linter for projects. That reduced code review for 30%
  - Single-handedly developed BPay application for bill payments. This application now integrated into all major applications in the country: government and banking.
- **Frontend Developer, Edelen |** 04/2021 - 04/2022
- **Web Developer, Tellsy |** 08/2020 - 04/2021

Education:
B.Sc. in Computer Science (in progress) — Saint-Petersburg Polytechnic University (remote)
